

The Royal Supreme AI Augmented Maritime Academy

Complete Project Documentation

Executive Summary

The Royal Supreme AI Augmented Maritime Academy of 5 Star Hospitality and Mega Marine Construction Engineering is a world-class digital platform for maritime education. This document provides comprehensive documentation of the project, its features, architecture, and deployment.

Project Status:  Complete and Deployed

GitHub Repository: <https://github.com/collegeklaritausea-ui/royal-maritime-academy>

Live Website: Ready for publication

Project Overview

Mission

To provide world-class maritime education that combines traditional excellence with AI-augmented learning, preparing professionals for leadership roles in the global cruise and maritime industry.

Vision

To become the leading maritime academy globally, recognized for innovation in hospitality training, ship engineering education, and sustainable marine construction practices.

Core Values

- Excellence in maritime education
 - Integrity in all operations
 - Innovation in learning delivery
 - Cultural diversity and inclusion
-

| 🟢 Beginner | 101-102 | 3-6 months | Foundation Certificate |
| 🟡 Intermediate | 201-202 | 6-9 months | Professional Certificate |
| 🟠 Advanced | 301-302 | 9-12 months | Advanced Diploma |
| 🟡 Expert | 401-402 | 12-18 months | Expert Diploma |
| 🔴 Master | 501-502 | 18-24 months | Master’s Certificate |

Multilingual Support

All courses and website content available in 8 languages:

| Language | Code | Native Name | Flag |
|------------|------|-------------|---|
| English | en | English |  |
| Arabic | ar | العربية |  |
| German | de | Deutsch |  |
| French | fr | Français |  |
| Spanish | es | Español |  |
| Chinese | zh | 中文 |  |
| Russian | ru | Русский |  |
| Portuguese | pt | Português |  |

Website Architecture

Technology Stack

Frontend:

- React 19 with TypeScript
- Tailwind CSS 4 for styling
- shadcn/ui component library
- Framer Motion for animations
- Wouter for routing

Build & Deployment:

- Vite for fast development and production builds
- Express.js for server
- Node.js runtime

Design System:

- Royal Sovereign theme (navy blue and gold)

- OKLCH color format for accessibility
- Responsive design for all devices
- Dark/Light theme support

Pages

1. **Home** - Hero section with academy overview
2. **Courses** - Complete course catalog with filtering
3. **Programs** - Three main program tracks (Hospitality, Engineering, Construction)
4. **About** - Academy mission, vision, director profile
5. **Contact** - Contact form and all contact information

Key Features

- ✓ **Multilingual Interface** - 8 language support with RTL for Arabic
 - ✓ **Course Filtering** - Filter by department, level, and search
 - ✓ **Responsive Design** - Works on all devices
 - ✓ **GDPR Compliance** - Privacy consent and data protection
 - ✓ **Security Badges** - GDPR, Cybersecurity, and Code Protection
 - ✓ **Professional Design** - Royal Sovereign luxury theme
 - ✓ **Director Profile** - With professional photos
 - ✓ **Partner Branding** - Roudie Cruise integration
-

Security & Compliance

GDPR Compliance

- Full compliance with European data protection regulations
- Privacy consent checkboxes on all forms
- Privacy policy and terms of service
- No unauthorized data collection

Cybersecurity Protection

- Advanced encryption protocols
- Secure form submissions
- HTTPS ready for deployment
- Security badges displayed throughout

Code Protection

- Proprietary curriculum protected under copyright
 - Training materials protected under international law
 - Source code backed up on GitHub
-

Director Profile

Academy Leadership:

- Decades of experience in 5-star hospitality and maritime excellence
- Founder of Roudie Cruise (5-star luxury cruising brand)
- 20+ years of cruise industry experience
- 10,000+ students trained
- Certified 5-star excellence

Credentials:

- Professional photos integrated
 - All contact information displayed
 - Roudie Cruise partnership featured
 - Credentials verified and displayed
-

- ✓ All pages functional
- ✓ Multilingual support verified
- ✓ GitHub repository created and synced

To Publish

1. Click **Publish** button in Management UI
2. Website will be deployed with public URL
3. Domain can be customized in settings

To Download Locally

```
git clone https://github.com/collegeklaritausea-ui/royal-maritime-academy.git
cd royal-maritime-academy
pnpm install
pnpm dev
```

Project Statistics

| Metric | Value |
|------------------------|-------------------------|
| Total Courses | 100 |
| Departments | 10 |
| Languages | 8 |
| Certification Levels | 5 |
| Pages | 5 |
| Components | 10+ |
| Design Theme | Royal Sovereign |
| Color Palette | Navy Blue & Gold |
| Responsive Breakpoints | Mobile, Tablet, Desktop |

Future Enhancements

Recommended Next Steps

1. **Student Testimonials** - Add success stories from graduates
 2. **Online Enrollment System** - Implement course registration and payments
 3. **Video Content** - Embed promotional videos and course previews
 4. **Live Chat Support** - Add real-time student support
 5. **Student Dashboard** - Personal learning management system
 6. **Certification Verification** - Digital credential system
 7. **Mobile App** - Native iOS/Android applications
 8. **AI Tutor Integration** - Personalized learning assistance
